

# Recycle your old small electricals at the kerbside

Please put out your small electrical recycling regularly. Little and often is best, even if it's just an electric toothbrush, we will collect it!

Everything with a plug, battery or cable has the potential to be recycled. Turn over for details...

Together with

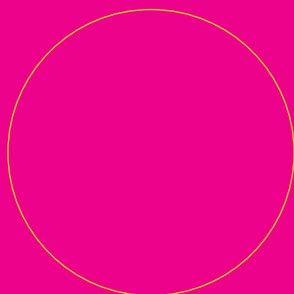

**recycle  
your  
electricals  
campaign**

# Small electrical collections starting from 23 November

**A new kerbside collection of small electricals  
on your normal rubbish collection day.**

## We will collect

### A few examples:

- ✓ Small kitchen appliances
- ✓ Cables, plugs, chargers and controls
- ✓ Mobile phones and games consoles
- ✓ Power tools
- ✓ Batteries (in a separate bag)
- ✓ Personal grooming products

## We won't collect

### A few examples:

- ✗ Bulky electricals
- ✗ Lightbulbs
- ✗ Microwave ovens
- ✗ TV's, laptops and monitors
- ✗ Gas cylinders from styling equipment
- ✗ Black sacks

## Remove any batteries and place in a separate bag

- 1 Bag it** - Place dry electricals in a carrier size bag (35 x 40 cm).
- 2 Tie it** - Knot the bag securely so the contents can't fall out.
- 3 Recycle it!** - Place the bag beside your rubbish bin for collection.

**IMPORTANT:** Place all unwanted household batteries in a separate bag. They will be collected with your other electrical recycling.

**Visit our website for further information  
on this new kerbside collection and  
recycling options for all your electricals.**
