Document Retention Policy

The Parish Council recognises that the efficient management of its records is necessary to comply with its legal and regulatory obligations and to contribute to the effective overall management of the Parish Council.

This document provides the policy framework through which this effective management can be achieved and audited. It covers:

- **Scope**
- **Responsibilities**
- **Relationships with existing policies**
- **Retention Schedule**

Scope of the policy

This policy applies to all records created, received or maintained by the Parish Council in the course of carrying out its functions. Records are defined as all those documents which facilitate the business carried out by the Parish Council and which are thereafter retained (for a set period) to provide evidence of its transactions or activities. These records may be created, received or maintained in hard copy or electronically.

Responsibilities

The Parish Council has a corporate responsibility to maintain its records and record management systems in accordance with the regulatory environment. The person with overall responsibility for the implementation of this policy is the Clerk to the Parish Council, and he/she is required to manage the Council's records in such a way as to promote compliance with this policy so that information will be retrieved easily, appropriately and in a timely manner.

Relationship with existing policies

This policy has been drawn up within the context of:

- Freedom of Information policy
- Data Protection policy
- Other legislation or regulations (including Audit) affecting the Parish Council.

Retention Schedule

The retention schedule lays down the length of time for which the record needs to be retained and the action which should be taken when it is of no further administrative use.

The Clerk will manage the current record keeping systems using the retention schedule and taking account of the different retention periods when creating new record keeping systems. This retention schedule refers to records regardless of the media in which they are stored.
